

PUBLIC SERVICE ANNOUNCEMENT

Date: July 26, 2022
To: Media Outlets
From: Shane Bowles, Public Works Director
Re: Seal Coat Project 2022

The start date for the Annual Seal Coat Program has been **delayed to August 1st, 2022**, and will now be completed throughout the month of August. Citizens are advised to check the City of Big Spring Facebook page as we will use it to keep citizens updated on the project as well as the location of work crews as work progresses.

To complete the project more efficiently, the public is asked to remove ALL vehicles from specified roadways. The seal coat project will be in progress for the next three weeks. Citizens are advised that vehicles will need to be removed from the roadway when the work crews are working on the designated street. There will be an attempt to contact vehicle owners to move their vehicles by knocking on doors. The towing of vehicles will only be done as a last resort and will be done at the owner's expense.

During the project, citizens will be permitted to park vehicles on the sidewalk and/or yard, but vehicles should be removed as soon as the roadwork is done for that area.

We are also asking citizens in these areas to turn off sprinkler systems until seal coating is complete. Lastly, residents are advised that any trees hanging out into the roadway should be trimmed 12 feet up and back to allow seal coat equipment. Untrimmed trees will be trimmed at the owner's expense.

The City of Big Spring regrets any inconvenience related to the seal coating program and requests the public's patience during the project. If you have any questions, please call the Public Works Office at 432-264-2501.
