

PUBLIC SERVICE ANNOUNCEMENT

Date: May 30, 2024
To: Media Outlets
From: Shane Bowles, Public Works Director
Re: Water Service Update

Early this morning, one of the city's pump stations went offline unexpectedly. As a result, our customers in the vicinity of Wasson Road are currently experiencing low water pressure. We expect repairs to the pump to be completed today, but customers in the area are advised that they will have low to no water pressure until those repairs are complete. As a precaution, we are asking citizens to refrain from watering yards today and tomorrow to aide in maintaining water service until the pump is up and running. We understand this is an inconvenience for our citizens and we appreciate your patience and understanding.

We sincerely appreciate your patience and cooperation in this matter. If you have questions, please contact the office of Shane Bowles, Public Works Director, at 432-264-2501.
