

PUBLIC SERVICE ANNOUNCEMENT

Date: September 18, 2024
To: Media Outlets
From: Shane Bowles, Public Works Director
Re: Water Interruption Notice

The city currently has contractors changing out water valves in various areas of town. When the valves are changed, customers around the area will experience a period (approximately one to two hours) of low to no water pressure. We understand this is an inconvenience for our citizens and we appreciate your patience and understanding. If you have questions, please contact the office of Shane Bowles, Public Works Director, at 432-264-2501.
