

PUBLIC SERVICE ANNOUNCEMENT

Date: August 28, 2025
To: Media Outlets
From: Shane Bowles, Public Works Director
Re: Water Service Interruption

The City of Big Spring would like to notify residents that there will be a temporary interruption of water service this morning while City utility crews are repairing a water valve at Wasson Road and FM 700.

Please be advised that residents and businesses in this area will have low to no water pressure during this time. Crews will work diligently to restore service as quickly as possible, but residents in the affected areas should plan for possible delays. Once service is restored, customers may experience temporary discoloration or low water pressure. This is normal and should clear after running the tap for a short period.

We also ask all residents and motorists to please be mindful of crews working on and near the roadway in this area. Use caution when traveling through work zones to help keep our workers safe.

We apologize for any inconvenience and appreciate your patience while we work to improve and maintain the City's water system. For questions or additional information, please contact the Public Works Department at 432-264-2501.
